

For 2027:

The percentage year-to-year increase or decrease in the U.S. Bureau of Labor Statistics (BLS) Consumer Price Index (CPI) for the 12 Midwest states (ND, SD, KS, MN, IA, MO, WS, IL, IN, MI, OH) were used to establish the 2026 Base Salary. Two similar versions of the Midwest CPI for the years 2023, 2024 and 2025 are available. They are (1) the Midwest CPI for Urban Wage Earners and Clerical Workers (CPI-W) and (2) the CPI for All Urban Consumers (CPI-U) in the Midwest. The BLS Midwest CPI data is available at [Midwest Consumer Price Index Card - Bureau of Labor Statistics](#). Also, the Illinois Department of Revenue (IDOR) uses the CPI-U for the entire United States for property tax extension limitation (PTELL) purposes, and is available at [Property Tax Extension Law Limit \(PTELL\) - tax.illinois.gov](#).

The relevant percentages are as follows.

Year	Midwest CPI-W	Midwest CPI -U	IDOR
2023	2.9	3.2	3.4
2024	3.0	3.0	2.9
2025	2.5	2.7	2.7
3-Year Average	2.8	3.0	3.0

Given the three-year averages, a future 2.9% annual increase is in order. That would mean the following.

Year	% increase	New Base	X 2.22*	CPIs Based On:
2023	3.8	\$38,126	\$84,639	2019, 2020, 2021
2024	5.0	\$40,032	\$88,871	2020, 2021, 2022
2025	5.7	\$42,314	\$93,937	2021, 2022, 2023
2026	4.1	\$44,049	\$97,789	2022, 2023, 2024
2027	2.9	\$45,326	\$100,624	2023, 2024, 2025

* M.Div. plus 25 years in ministry

That should still keep us comparable with neighboring districts. For this and following years' base calculations, CID is using a three-year rolling average of available data for each of the three measures.
